

FORTRON *PARTS*

REPLACEMENT PARTS FOR AGRICULTURAL MACHINERY

FORTRON

OUR BRAND IS OUR DNA

FORTRON IS THE
COMBINATION OF FORCE

*The robustness of the field combined
with the intelligence of technology, to
bring more efficiency to farmers.*

Fortron is the ideal technology partner for farmers seeking efficiency, innovation, and greater profitability in the field.

With solutions in precision agriculture, geo-positioning, and digital agriculture, we optimize every stage of agricultural production.

MISSION

To democratize technology in agriculture, bringing innovation to every farming region and transforming agribusiness through productivity and efficiency.

VISION

To consolidate our position as a leader in agricultural technology, recognized for excellence in innovative solutions that increase productivity in the field and generate prosperity for farmers.

For a decade, Fortron has been dedicated to offering innovative technological solutions that transform the routine of farmers and increase productivity in the field, boosting Brazilian agribusiness.

We are recognized for our technical expertise and commitment to excellence. We have a specialized team with extensive experience, always focused on ensuring exceptional results for farmers, generating prosperity for the entire agribusiness chain.

Our history is built on every partnership we form and every challenge we overcome alongside rural workers. We cultivate solid relationships because we believe they are the foundation for continuous innovation, collaboration, and overcoming challenges.

Over the next ten years and beyond, we will remain committed to developing technologies that make a difference in the field. Because for Fortron, more than just business, this is our mission and reason for being.

VALUES

CUSTOMER FOCUS

Tailored solutions to meet the needs of each farmer.

INNOVATION

Commitment to cutting-edge technology that transforms agribusiness.

EXCELLENCE

Delivery of products and services that exceed customer expectations.

PARTNERSHIP

Strong and lasting relationships with customers and suppliers.

RESPECT AND MERITOCRACY

We value talent, fairness, and respect in all our relationships.

TIMELINE

AKK25356FT

Seed sensor compatible with Auteq MPA2500 and FORTRON F-15 monitors

- Rugged with exclusive glass lens
- 4-way TE Deutsch connector
- 18mm optical window with high-sensitivity infrared photodiode
- Operating voltage: 7 to 16 Volts
- Power consumption: 30mA
- Signal type: CANbus 2.0B

452440891-2FT

Seed sensor compatible with Dickey John, GPS Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors with a 90cm cable

- Rugged with exclusive glass lens
- 3-way Delphi Weather Pack connector
- 18mm optical window with high-sensitivity infrared photodiode
- Operating voltage: 7 to 16 Volts
- Power consumption: 30mA
- Signal type: pulse output

FT5218

GNSS speed sensor

- Output in high-precision pulsed signal
- Compatible with equipment that accepts pulsed and radar inputs
- Fast convergence
- High sensitivity
- GNSS frequency - 10Hz
- Output signal - NPN square wave pulse, 60 pulses/m
- Operating current - 100mA
- Start-up time - less than 60s
- Minimum operating speed - 1 km/h (0.62 mph)

404831A1-FT

Seed sensor compatible with Case and New Holland planters

- Rugged with exclusive glass lens
- 3-way Delphi Weather Pack connector
- 23mm optical window with high-sensitivity infrared photodiode
- Operating voltage: 7 to 16 Volts
- Power consumption: 30mA
- Signal type: pulse output

452440891-2JA

Seed sensor compatible with Selenium Electric J.Assy Dosator 90cm cable

AA58295-2FT

Seed sensor compatible with Dickey John, Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors with a 15cm cable

FT4109-S2

Low-profile seed sensor compatible with Dickey John, Trimble Field-IQ, Precision Planting, and FORTRON F-15 monitors with a 90cm cable

FTSS02

Seed sensor compatible with Agral ACEconomy, AG8000, and AG8100 monitors

AAx10030FT

GPS + Glonass antenna compatible with Auteq MPA2500 and FORTRON F-15

AA47936FT

Inductive wheel speed sensor for planters (M30)

AA54557FT

Incremental encoder rotation sensor, 360 pulses/revolution

FT2755131

Encoder 360 Pulses Variable Rate Jumil

ACX3452630FT

32mm Fertilizer Sensor compatible with AGCO planters and Dickey John, Trimble, Precision Planting, and FORTRON monitors

FT2748

48 rows

FT2724

24 rows

Seed and fertilizer module for planting monitor

RE261354FT-A

John Deere planter lift height sensor

AA67780FT

Acrylic seed tube assembly with sealing ring

FT087076

Rapid Check 1"
Flow rate: 10-100 l/min
Jacto / Stara / Kuhn / Montana / Jan

FT79204172

Rapid Check 1 1/4"
Flow rate: 17-170 l/min
Jacto / Stara

FT499137

Rapid Check 1 1/2"
Flow rate: 35-350 l/min
Jacto

FT79234071

Rapid Check 1 1/2"
Flow rate: 55-550 l/min
pulverizador Stara 3.0 e 4.0

FT42306399

Rapid Check 2"
Flow rate: 75-750 l/min

AN305056FT

Rapid Check 1 1/2"
Flow rate: 35-350 l/min
John Deere

FT87999

Flow meter sensor for
Jacto sprayers

78104561FT

Flow meter sensor
For Stara / Kuhn / Montana
sprayers

750364FT

Jacto segment sensor

KITS

JACTO
ROTOR + SENSOR
FT087076 - FT87999

FT99010714

STARA
ROTOR + SENSOR
FT087076 - FT78104561

FT99010741

843888FT

Jacto wheel sensor

73105590FT

Hall effect speed sensor for solid
spreaders

73104992FT

Stara magnetic sensor

73104045FT

M12 inductive sensor with

73104063FT

M12 inductive sensor

AT333680FT-A

FEEDER POSITION
SENSOR FOR
HARVESTERS

REPLACES: AT333680FT - JOHN DEERE

AXE58085FT

CONCAVE OPENING POSITION
SENSOR FOR HARVESTERS

REPLACES: AXE58085 / AH145352 - JOHN DEERE

AXE17036FT-A

Platform angle sensor

AN372268FT-B

Angular position sensor for cotton
harvesters and sprayer boom opening

AH221249FT

Harvester RPM rotation sensor

AH233087FT

Corn platform angle sensor for
John Deere

AH232229FT-A

Sieve angle sensor for John
Deere harvesters

RE261356FT-A

Height position sensor for
John Deere platform

FT47419430

CNH Platform
Position Sensor

AH116104FT

Harvester rotation sensor

FT245193C2

CNH RPM Sensor

REPLACES NEW HOLLAND: 245193C1

RE295929FT

John Deere tractor
rotation sensor

FT87491753

GPS RECEIVER
COMPATIBLE WITH
CNH HARVESTERS

Replaces GPS Receiver CASE CNH

ORIGINAL CODE: 84260205, AG062, 87491753, AG162

FT990546

Refueling kit for agricultural tanks

FT8147002

Cap and strainer for 400L, 600L, and 800L tanks

FT8384404

10 bar pressure regulator valve

FT8384037

20 bar pressure regulator valve

FT8388007

Agitation valve

FT6121000

Comet BP75 pump

FT605075

Pressure pump 5.0 gpm 12V 5Is

FT0500750

Hydraulic motor

FT5011022

Pump coupling

FT8386011

Electronic regulator valve 13mm 60 L/min -

FT8388000

Electronic 3-wire controller valve without return 20 Bar - 8388000

FT990555

Comet BP75 pump repair kit

FT8095001

100 l/min suction filter, 50 mesh filter element

FT3000007

80 l/min capacity, 50-mesh filter element

FT3000069

Long cup line filter 150 l/min. 80 mesh filter element

FT3000070

Flanged line filter 15 bar

9903081900XX

**IN-FURROW
SPRAYER
INDIVIDUAL LINE**

FT303SB

Nozzle support

FT4002146

1 Lechler Original 0.5 bar anti-drip nozzle

FT1001002-XX

1 Magnojet solid stream nozzle

*Color at customer's

FT5849553

Pressure gauge

FT99055700

Electric pump repair kit

FT9905102

Rear support for in-furrow sprayer for AGCO Momentum planters

FT9905103

Support for in-furrow sprayer in corbel or table format

FT3000089

Main anti-drip nozzle for the line

FT4002146

0.5 bar anti-drip

FT0847-X
